MINISTER KEILLY.

It is understood that Mr. Keilly, recently appointed United States minister to Austria, whose appointment has occasioned considerable comment, will not be recalled. He will go to Vienna and should the Austrian government refuse to receive him, it is intimated that the Austrian government will remain unrepresented at the Vienna court. It is held that Mr. Keilly is a capable man and in every way fitted to fill the position to which he has been appointed. When he was appointed minister to Italy he was endorsed by the entire congressional delegation of Virginia, and was confirmed by the senate. The Italian government, it is understood, made inquiry of this government whether or not Mr. Keilly had given utterance in a political speech, in 1871, to sentiments in opposition to the occupation of Rome by Victor Emanuel. The former government afterwards, it is said, protested against his appointment, and Mr. Keilly resigned his commission. It is held that the Austrian government has no ground to complain of Mr. Keilly's present appointment. The question has been raised whether or not it was uncomplimentary to Austria to send Mr. Keilly to Vienna after he had been rejected by Italy. It is asserted that the appointment was not uncomplimentary, and the case of Mr. Kasson, who was nominated for the Spanish mission and objected to by Spain, but afterward sent to Austria, where he was received, is cited in support of the statement that no disrespect is thus offered to Austria. Some years subsequently, and until a very recent date, Mr. Kasson served as United States minister to Berlin.

OUR COMMERCE WITH CHILI.

The South American commission, under date of Santiago, May 18, have made their report to the secretary of state of the result of their visit to Chili. The commission reached Valparaiso, May 5. The report says: "Valparaiso is almost an English colony. The English language is used almost exclusively in trade, and the leading merchants are subjects of Great Britain, there being but three distinctly American houses in the city. The amount of goods imported from the United States is very small, beyond what are bought by those firms, the great obstacle to an extension of this trade being the disposition of Englishmen to trade at home and their ability to do so, on account of the high freights between New York and Valparaiso, which are unusually double the cost of transportation between Valparaiso and London, Havre or Hamburg. In short, no goods are imported from the United States, except when they can not be obtained elsewhere, and then it is found much cheaper to ship them to Chili from New York via Hamburg or Liverpool." The report says a series of propositions were submitted to him, but he did not seem disposed to enter into any negotiations. The president stated his belief that if direct steamship communication were established between Chilian and American ports commerce would greatly increase. He said subsidies are now paid steamship companies, and that similar encouragement should be given a company desiring to establish a line between Chili and the United States.

CIVIL SERVICE.

Mr. Owen Kellar, of Caldwell, Ohio, who was certified by the commission for appointmentment to a clerkship in the first auditor's office, and was rejected by First Auditor Chenowith on the ground that he was a Republican and was distasteful to Congressman Warner and other Democrats of his neighborhood, has this morning been appointed by the order of Secretary Manning to the place for which he was certified. Kellar yesterday brought the facts in the case to the attention of the civil service commission by whom they were last evening laid before the president. The commissioners said the refusal to appoint Kellar appeared to be in violation of rule eight, which forbids any discrimination by the appointing officer on political grounds, and they further represented that the reception of recommendations by the auditor from Congressman Warner that Kellar be not appointed appeared to be in plain violation of the tenth section of the civil service act, which says that no recommendations shall be received from any member of thehouse of representatives, except as to the character of the applicant by any person concerned in making any examination appointment under the act. Under this provision, the commissioners say the auditor had no right to reject the appointment. Early this morning as the commissioner was further considering the subject with a view to its more careful investigation, the following was received from the secretary of the treasury:

TREASURY DEPARTMENT,
OFFICE OF SECRETARY,
WASHINGTON, July 2.

Hon. Dorman B. Eaton, United States Civil Service Commissioner.

SIR—I was not until last night fully informed of the circumstances connected with the Kellar affair. If you have Mr. Kellar's address will you kindly advise him to report to me this morning for duty. I intend this department shall strictly observe the law. Respectfully yours,

DANIEL MANNING.

Mr. Kellar, who sat in Commissioner Eaton's office when the secretary's letter was received, went at once to the treasury department and was immediately appointed and set to work. It is understood that an interveiw took place this morning between the secretary and General Chenowith, which it is said the former took occasion to state with considerable emphasis his determination to uphold the civil service law.

William Calhoun, the accountant of New York, who was selected by Secretary Whitney to investigate the system of keeping books in the navy department, has made a preliminary report and has recommended an entire change of system. He favors the adoption of the system of the English navy department.

RUNNING CARS

Through Lines of Chicago Policemen.

By Telegraph to The Sentinel.

CHICAGO, July 3.—Under the protection of the entire reserve police force of the city six cars were sent out by the West Division railway and succeeded in making their way into the business portion of the city. They encountered no opposition. The cars were filled with policemen and the entire thoroughfare was lined with policemen. West of Ashland avenue no vehicles of any kind are upon the street. The police have made allowed more than 100 arrests of persons suspected of an inclination to impede the progress of the cars or who refused to obey the injunction of the police to quit the thoroughfare. Madison street along its entire length is filled with excited strikers and their sympathizers and curious spectators. The windows of the buildings overlooking the street are filled with people. Outside this one street, however, there is no semblance of excitement.

"RATS! RATS!"

CHICAGO, July 3.—Carson, on his second trip down town, made the journey safely. The police, however, assumed the offensive and arrested every body making the first sign of desiring to create a disturbance. The favorite cry of the on lookers as the cars were passing appeared to be "Rats," but every body indulging in a jeering cry and detected in it was placed under arrest. It was generally understood the police had orders to shoot, which made the crowd hesitate about attacking cars.

A GREAT POLICE SYSTEM.

Lieutenant Laughlin with about twenty men made a detour on patrol patrol wagons and surprised a lot of active sympathizers placing obstructions on the tracks. These people, however, cought sight of the blue coats in time to make their escape. Some excitement occurred at the Desplaines street station where the prisoners were locked up. Bail was refused in all instances and nothing respecting the prisoners would be vouchased.

THE THIRD TRIP.

1:30 P. M.—The street cars have made a third trip without molestation. The crowds are not quite so dense and the excitement appears in a measure to have subsided. Nobody but policemen, however, are riding upon the cars and the company is not sending out any cars except when thoroughly guarded and are not attempting to run cars on any street except Madison.

THE LATEST.

CHICAGO, July 3.—The situation as affecting the street car strike remains unchanged up to this hour. Madison street is crowded and the car company has made no practical progress toward accomplishing a resumption of travel. The conductors held a conference with Mayor Harrison, but nothing resulted from it.

REPORT OF CITY ATTORNEY.

1. I have, with great assistance from Councilman Michael and Engineer Goshorn, been able to report to-night the proper resolution to present petition to the county commissioners for the annexation of certain lands and territory to the limits of the city. I am satisfied that the descriptions are correct and that the true names of the different owners are given, and to effect your purpose the resolution should pass by at least a two-thirds vote of all the council upon a call of the yeas and nays. After which the petition should be signed by all the members of the council and his honor the mayor.

2. In relation to the petition of Wm. Meyer and others, owners of Gerke's addition, for the refunding of illegal taxes, I report that I recommend that said owners, with the exception of William Meyer, be allowed a refunder at 70 per cent., upon the same terms as the other settlements of like nature were made; and in reference to the claim of Mr. Meyer I ask that no action for the present be taken, as I stated to his counsel that if he could show that Mr. Meyer was not estopped by having been a member of the council at the time of the annexation and conversant with all the facts before he made such payment, I would recommend that his claim be allowed.

3. I find the bill of A. L. Griebel correct, and it should be paid.

4. I am of the opinion that the claim of Fred Cook, late poundmaster, for eleven days services at $1.50 per day as such, should be allowed. After he was elected and qualified, he was directed not to enter upon his services, under the misapprehension that the ordinance had not been published, but such apprehension was unfounded, the ordinance having been duly published nearly two years ago. He was ready, after qualifying, for eleven days to discharge his duties, and therefore the city is indebted to him in the sum of $16.50.

5. In reference to the resolution of Councilman Lincoln relating to the filling of lots 16 and 17, Nirdlo's second addition, I report that I have prepared the proper resolution under the chapter of the revised ordinances of the city, and recommend its passage so that the city may be assured a recovery of the money expended.

6. I have carefully prepared and requested the introduction of an ordinance to provide a mode of recovering expenses incurred by the city in removing or repairing dangerous buildings. The ordinance must pass before any repairs or expenses are made, otherwise the city will be unable to collect such expenses.

7. I have prepared and respectfully recommend the passage of an ordinance to prevent the shooting off of cartridges or blank cartridges within the city limits. The record will bear me witness that blank cartridges have on an average for the last five years caused the death of at least two persons each year. By declaring it an offense to sell such to minors, or for any person to fire cartridges or blank cartridges off within the city, such loss of life, I believe may be prevented. If the ordinance is passed this night it will in force on the 3rd day of July next.

HENRY COLERICK, City Attorney.

REPORT OF CITY TREASURER.

I hereby report that I have appointed Jno. G. Lehr my deputy to collect delinquent taxes of 1884.

H. C. BERGHOFF, Treas.

Consent given by council.

REPORT OF CITY CIVIL ENGINEER.

In the matter of the break in the Coombs street sewer at its outlet. The repair of which was let to August Gerterding by contract. The plan of which I cannot cheerfully endorse, as it would incur a greater expense to city for a mere temporary improvement than to remove the bulkhead, from its present location back to the bank where it will connect with the sewer at the south end of the break, and when properly constructed will make a permanent improvement.

J. S. GOSHORN, City Civil Engineer.

Referred to the committee on sewers, to report at meeting of council Monday July 6.

REPORT OF CHIEF ENGINEER OF THE FIRE DEPARTMENT.

I would beg leave to report that the roofs of the truck house and part of the hay loft are in a bad condition. I would therefore recommend that they be replaced by new ones.

HENRY HILBRECHT, Chief.

Referred to the committee on public grounds and buildings.

REPORT OF THE TRUSTEES OF THE WATER WORKS.

The trustees of the water works having held a meeting at which the committee on water works and Messrs. Baltes & Blystone were present, and having received a proposition from Baltes & Blystone, who now represent Baltes & Langohr, contractors for the construction of the reservoir, we respectfully report that said proposition is one that we cannot entertain or approve and we have decided to complete the reservoir ourselves.

Before doing so we desire a written opinion immediately from the city attorney as to our proper manner of procedure according to law and to the terms of our contract, so that we may make no mistakes in this respect.

We also desire to have the city civil engineer make a careful estimate of the work already done on the reservoir. And in so doing we believe that the contractors, Baltes & Blystone, should be notified, so that they can see that such estimate is carefully made, to avoid a disagreement on this point in the future. As it will take some time to prepare our machinery for the completion of the work, and the season well advanced, we urge upon you to see that the attorney and engineer attend to these matters at once.

We will use what money we can spare from our revenues for this work, but feel that the council should make an appropriation to be used, if necessary. The completion of the reservoir is demanded, as it will give additional security to the numerous large manufacturing establishments located in that part of the city and will convert a now unsightly monument of uncompleted work into one of utility and beauty.

It is the earnest desire of the tustees that the council will act upon the suggestions of this communication without delay.

JOHN F. W. MEYER,
C. MCCULLOCH, } Trustees.
T. B. HEDEKIN,

Referred to a special committee consisting of Councilmen Mohr, Michael, Lincoln, Kensill and Storm.

Shunk, benefitted $25; west one-half of lot 149 Hanna's addition, owned by Pius Schultheis, benefitted $25; total $100.

We recommend that said alley be vacated as proposed, and that the benefits assessed be paid and collected according to law.

The Root of the Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does by acting upon the blood thoroughly cleansing it of all impurities, and leaving not a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

Anson R. Hayden, of Anoka, Minn., died from the effects of ingrown toe-nail the other day.

For nearly two years, G. B. Dickerson, of Logansport, Ind., suffered from intermittent fever, and could only get it cured from one to four weeks, at a time, by the usual remedies prescribed by physicians. He heard of the virtues of Mishler's Herb Bitters the successful enemy of almost every form of disease of the blood, stomach, liver and kidneys, and purchased a bottle. Since taking the bitters he has had no relapse of the disease. "I feel like giving my testimony unsolicited in behalf of the bitters," he gratefully says.

Why She Didn't Marry Him

"Yes, I live pleasantly enough with my husband," she said, "but I believe I should have married Augustus, if all the girls hadn't made fun of him and said he'd be as bald as a pumpkin in a year or two." Young men, take warning and use Parker's Hair Balsam. Cleanses the scalp, restores color, removes dandruff.

CHOLERA is rapidly moving westward and will soon appear in this country. In order to prevent disastrous effects from its ravages every preventive should be employed, and the system should be in perfect condition. At this season of the year the system is in a weak state and easily susceptible to dangerous disease. Pain in the back, weariness, lassitude, headache, dyspepsia, indigestion, kidney and liver complaints are but the result of neglect. During the last visitation of cholera to this country no medicine was found equal to Mishler's Herb Bitters, both as a preventive and cure, and it has been equally successful in all the diseases above mentioned. It renews and invigorates the blood, restoring to health and strength, and thus shielding the system from disease.

Eczema!

For the benefit of suffering humanity, and in heartfelt gratitude at the wonderful result, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with hereditary Eczema or Salt Rheum from her infancy. It has increased in intensity with each succeeding spring, and being somewhat skilled in medicine myself, I tried every remedy I could think of for years—Sarsaparilla combined with every form of Potassia, "Cuticura," pills of every kind, and hundreds of other remedies, lotions and alkali washes of every known kind, but they all gave only temporary relief. During the spring of 1884 her lower extremities became so inflamed and sore that she was obliged to keep them constantly coated with a cover of "Fuller's Earth," mixed wet and allowed to dry on. Among other things, she was inflicted with a periodical nervous headache, occurring regularly every seven days, sometimes followed by an intermittent fever for weeks at a time, so that her life became a burden to her.

This spring I determined she should take S. S. S. and follow strictly the directions in regard to dose, diet, etc. This was about seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle, three tablespoonful four times daily. Every appearance of the disease has gone, and her flesh is becoming soft, white and smooth again; and what is more, her periodical headaches have disappeared and she is now, at 53 years of age, enjoying the only good health she has known for upwards of 40 years. No wonder she declares with emphasis that every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 136 Mullett street, or by me

The patrons of husbandry is an organization which has been of great benefit to farmers. Mr. H. O. Devries, the master for the state of Maryland, was completely cured of rheumatism by St. Jacobs Oil.

The Wabash people have at last struck one man who could head them off. They stripped the Cairo division of everything which was movable except 300,000 cross-ties which they had purchased and paid for. The new management do not object to the Wabash people taking them, but they charge such high rates that it wont pay to have them shipped so great a distance.

The new bay-window parlor cars recently put in service on the Pennsylvania road are catching on so well with the traveling public that the company will build a number more, and propose to run solid trains of these cars between Philadelphia and New York, and it is also a part of the program to extend the service to the main lines west between Pittsburg, Fort Wayne and Chicago.

"Permanent."

There are medicines which give only temporary relief and then leave the sufferer worse off than before, especially in cases of dyspepsia. Remember that this is not the way with Brown's Iron Bitters. See what Mr. J. M. Gaines, of Gaines, S. C., says about this prince of tonics, "My wife has been greatly benefited by it; she had been troubled with dyspepsia for years, and now I believe she is permanently cured." It also cures kidney and liver complaints.

Lord Salisbury is the first prime minister the Queen of England has had younger than herself.

Why do you suffer with backache, pain in the chest, rheumatism, or lameness anywhere when a Hop Plaster will surely give you relief. Druggists sell them, 25 cents.

Wintry Winds.

Its all right for poets to sing the praises of the beautiful snow, and the merry sleigh bells, and the ringing skates on the glassy ice, but they can't fill the bill with that sort of stuff when one is sitting with his feet in a tub of hot water, his head done up in flannels, and with mustard plasters on both sides of his chest. What a person needs then is a thorough dose of Kidney-Wort to act as a cathartic, for nothing will so quickly relieve that congestive, feverish condition which comes of a hard cold. Often these colds cause bilious attacks, lame backs, disordered kidneys, rheumatism, catarrh, etc. Kidney-Wort can be relied on to bring back a healthy condition.

Enemies Ready to Strike.

Every family is constantly in danger from impure water, unripe fruit, unwholesome food, contagious diseases, cramps, cholera morbus, coughs and colds, indigestion and simple fevers. In such cases a bottle of Parker's Tonic kept in the house renders it unnecessary to call a physician. Nothing so good for children.

NERVOUS, DEBILITATED MEN

Midsummer Normal Term at the Fort Wayne College.

The new county superintendent, Mr. G. F. Felts, will be present frequently, and will be able to make valuable suggestions to the teachers, regarding their preparation for their work in the schools of the county.

Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33⅓ per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1856, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

The road took no part in the destruction of the pool and it stands ready to assist those who accomplished its destruction in rearing a new structure when they perfect designs which are substantial in character.

THE GLORIOUS.

The National Holiday to be Modestly Observed in Fort Wayne.

To-morrow occurs the anniversary of the declaration of American independence. There will not be a big, roaring time here, as the day has been quietly given to Mr. Forepaugh and his greatest show on earth. Red lemonade, red ginger cake and the customary circus accoutrements will materially assist the patriotic citizens to paint the village in national colors. The fire cracker and cannon will combine to convert the air into a sulphurous canopy and in the evening a few private exhibitions are booked, but on the whole the circus and picnics will take the cake. Gambrinus will reign with some degree of dignity at the Tivoli garden, apple orchard, fair grounds and about town.

The railroad shops will close, the manufactories will not kindle fires, and most of the business houses will suspend in the afternoon. The court house will be locked and as all do honor to the national holiday THE SENTINEL bows in obedience and will not issue to its readers to-morrow evening.

The Forepaugh Success.

The circus season is upon us and revives many a pleasant memory of childhood, when the longing for a sight at the highly-dressed riders, the beautiful horses, and mid-air flights of reckless gymnasts knew no limit. The oldest people remember the Forepaugh, always meritorious and satisfactory, as the best of all tented exhibitions. This year a series of brilliant successes has distinctly marked a new chapter in a life of extraordinary brilliancy from an amusement standpoint. The press are a unit this season as to Forepaugh's excellence, and when the exhibition arrives to-morrow an ovation is promised. When the people of Fort Wayne yield the Fourth of July to circus it means that it is worth much of a lifetime to see it.

Favorable Outlook for Crops.

Col. Charles N. Lee, who has been traveling through Northern Indiana and Ohio during the last two weeks, says in the Indianapolis *Journal* that the wheat in the country through which he has passed looked remarkably well and there will be a good yield, and that there will be an immensely large crop of corn and oats.

A LIGHT QUARREL.

The Jenny Company Said to Have a Hand in the Matter at Indianapolis.

The Brush Electric Light company is erecting several high towers in various parts of Indianapolis and has come into conflict with the city authorities, who claim that the company is openly violating a city ordinance. Yesterday City Attorney Denny gave an opinion that the work of erecting these tower lights was being done contrary to an ordinance passed by the city council in May, 1882, forbidding the erection of such structures without the special permission of the council and board. The workmen were ordered to stop, but Mayor Caven said "no," and claims, however, that a special ordinance was passed by the council and board of aldermen, giving the company undoubted legal authority to put up the masts. It is understood that the principal opposition comes from the Jenny Electric Light company, of Fort Wayne, in which Alderman Rorison is pecuniarily interested.

As yet no warrants have been served or arrests made, and until such a move is made the work will proceed.

The Wabash Visitors.

James Bald, of Glasgow, Scotland, representing the committee of English capitalists holding Wabash securities, was in conference yesterday with Thomas E. Tutt, co-receiver, and J. F. How, agent for the receivers of the Wabash at St. Louis. Mr. Bald is accompanied by Joseph Hobson, chief engineer of the Great Western division of the Grand Trunk of Canada. The object of this visit is to look the property over, and ascertain in what manner the reorganization scheme can be started. During the morning Mr. Hobson spent an hour in the office of K. H. Wade, superintendent of transportation, during which time he examined Mr. Wade's methods of receiving trains and weather reports. Mr. Hobson said Mr. Wade's plans were the most thorough and exhaustive he had ever seen. The gentlemen will take in the Wabash system from stem to stern before running east.

F. L. McCauley and W. J. Chapman, of Warsaw, are at the Aveline.

A Burglar Bagged.

James Bowers, a seedy, senseless looking young man, is under arrest for burglarizing the residence of Mayor Muhler. He pawned cuff buttons at Mariotte's second hand store and Marshal Meyer secured the articles yesterday, but could not find Bowers. The night police were after him and Officer Pete Owens nabbed the fellow hanging about the second hand store again last night.

He had a preliminary hearing this morning and was bound over for trial by Justice Ryan in the sum of $500. He says he is guilty and implicates a companion.

We all say that we feel the necessity in the spring of toning up our system and no better tonic than Dr. Nichol's Bark and Iron can be found. The medical profession have prescribed it for more than twenty-five years. 15-4w
